PROFESSIONAL SUMMARY

A detail-oriented and analytical Statistics graduate with over two years of hands-on experience in business intelligence, corporate operations, and Management Information Systems (MIS) reporting. Proven capability in leveraging ERP systems, Google Sheets, and data tools to streamline supply chains, manage branch inventory, and transform raw commercial data into actionable insights for corporate leadership. Strong technical proficiency in SQL, Power BI, and advanced Excel.

TECHNICAL & CORE SKILLS

- ❖ Data Analysis & Modeling: Regression Analysis, Data Transformation, Trend Analysis
- ❖ Tools & Software: ERP Systems, Google Sheets, PostgreSQL, Power BI, Advanced MS Excel
- ❖ Operations & MIS: Management Information Systems (MIS) Reporting, WAM & FMS Database Updates, Order Fulfilment, Logistics & Branch Allocation
- ❖ Core Competencies: Data Cleaning, Inventory Optimization, Cross-functional Team Leadership, Executive Stakeholder Support

PROFESSIONAL EXPERIENCE

❖ HAUSSTROM LTD | Lagos, Nigeria

Data Analyst / Sales Coordinator | April 2024 – Present

Duties includes:

Executive MIS & Reporting: Report directly to the Chief Executive Officer (CEO) and National Sales Manager, delivering critical daily, weekly, and monthly sales performance and profitability reports to drive corporate decision-making.

Database & Sheets Management: Continuously manage and update corporate tracking systems, including Google Sheets database pipelines (WAM, MIS, and FMS models), ensuring absolute data integrity.

ERP & Order Lifecycle Management: Oversee the end-to-end ERP sales workflow, including generating client quotes, raising and approving corporate purchase orders, processing final billings, and reconciling data mismatches.

Supply Chain & Logistics Optimization: Manage nationwide stock allocation datasets across multiple branch locations to ensure optimal inventory distribution and prevent stock outs.

Executive Operations: Coordinate corporate transportation logistics for executives and internal management team members to streamline daily operations.

NOTE: Served as NYSC Primary Place of Assignment from June 2025 – May 2026)

❖ **LEOTECH LTD | Lagos, Nigeria**

Sales Analyst (Part-Time) | December 2022 – February 2024

Duties includes:

Collected and consolidated regional sales figures, market trends, and demographic profiles to identify new customer growth opportunities.

Conducted routine historical data reviews of current customer bases to identify trends and drop-off patterns.

Developed detailed market analysis reports to support management with regional performance reviews.

❖ **DATAACE ACADEMY | Lagos, Nigeria**

Data Analyst Intern | January 2022 – December 2022

Duties includes:

Extracted and structured insights from complex, large-scale datasets to assist corporate decision-making processes.

Built interactive dashboards, reporting models, and visualizations using Power BI, Excel, and PostgreSQL.

Contributed to organizational rebranding efforts by adapting data collection and analysis frameworks to align with modern consulting standards.

EDUCATION

Ladoke Akintola University of Technology (LAUTECH) | Ogbomosho, Nigeria

Bachelor of Technology (B.Tech.) in Statistics | October 2018 – February 2024

Classification: Second Class Honors

PROJECTS & ACADEMIC RESEARCH

Undergraduate Research Assistant | LAUTECH

Thesis: Risk Factors Associated with Hypertension using Logistic Regression Models

Investigated primary health biomarkers to identify, evaluate, and isolate critical risk factors contributing to hypertension.

Built and cross-validated predictive regression models to determine the most statistically reliable fit for complex clinical data.
